Minister's Message

On behalf of Manitoba Agriculture and Food it is my pleasure to present the 2003 Manitoba Food Products Directory.

This Directory is designed to assist those in the food industry to make the contacts essential to their success. Its comprehensive listings include Manitoba food products, processors, manufacturers, wholesalers, brokers, marketing boards and producer associations.

Manitoba's central location in North America, as well as our worldwide reputation for high quality commodities and processed products, makes us well positioned to capitalize on business advantages in the global market place.

Manitoba Agriculture and Food is proud to be a leading-edge provider of information for our "family farm to family table" partners. It is through the development of resources like the 2003 Manitoba Food Products Directory that we can help to foster a prosperous agriculture and food sector.

I extend best wishes to all and invite you to explore the quality and diversity of the products featured in this publication.

Rosann Wowchuk
Minister
